Good day,

I'd like to make an access to information request regarding the table called "Statut vaccinal des nouveaux cas" and located in the one-page document called "Tableau de bord - situation de la Covid-19

- 23 septembre 2021", [https://cdn-contenu.quebec.ca/cdn-contenu/sante/documents/Problemes\\_de\\_sante/covid-19/20-210-382W\\_infographie\\_sommaire-executif.jpg](https://cdn-contenu.quebec.ca/cdn-contenu/sante/documents/Problemes_de_sante/covid-19/20-210-382W_infographie_sommaire-executif.jpg)

Please provide any and all documents related to that table, in particular the following questions:

Which department(s) of the INSPQ or Ministry of Health take care of calculating the "Risque par rapport à une personne vaccinée deux doses"?

As of September 23 2021, the "Statut vaccinal des nouveaux cas" shows 701 cases 463 cases are shown as unvaccinated, 39 cases are shown as one-dose vaccinated, and 199 cases are shown as two-dose vaccinated, the risks are 8.6 / 3.8 / 33.2 / 4.7. Can you provide the raw data underlying the calculations of the "Risque par rapport à une personne vaccinée deux doses"? Also, can you provide the details of the calculation for September 23, 2021, including the adjustment by age?

What category of vaccinal status applies to cases who got vaccinated abroad?

What category of vaccinal status applies to cases whose vaccination status is unknown?

What category of vaccinal status applies to cases vaccinated with Sputnik V, Sinovac, or any vaccine other than those available in Québec?

What category of vaccinal status applies to cases that were vaccinated with one shot of Pfizer, Moderna, or Astra Zeneca but also had Covid-19 previously?

What category of vaccinal status applies to cases that were not vaccinated, but had Covid-19 previously?

At what time of the day is the vaccinal status of each case verified for the purposes of the table?

How is the vaccinal status of each case verified? Is the vaccinal status entered manually or obtained automatically and from what database(s)?

How quickly can the vaccinal status of a case or hospitalization be verified?

How many people in Québec are still unvaccinated and have not previously been infected with Covid-19?

Last but not least, is it possible to provide all of the "Tableau de bord - situation de la Covid-19" since July 1, 2021?

I am writing this access to information request in English, but feel free to answer in French if it's easier for you.

Thank you,
