

DAI 2021.2022.077

For the Tableau de Bord – Covid-19 (published on [https://twitter.com/sante qc](https://twitter.com/sante_qc)) for April 28, 2022 :

Is the Tableau de Bord available in a Word, Excel, or Power Point presentation format? If so, please provide a copy of the Tableau de Bord in this format. What format is the Tableau de Bord stored in by the MSSS?

Voir onglet 2, le document est en format PDF

Also, the Tableau de Bord has a column titled “Population du jour” (2,342,828) for two-dose vaccines). Can you provide the population figures split between the two age categories “59 ans et moins” and “60 ans et plus”?

Nous joignons le fichier Excel sous l’onglet 3.

Has the MSSS considered providing the population figures split between age categories and vaccine status (how much population is in each age category and vaccine status)? If so, please provide the relevant documents.

Sur les données ouvertes

<https://www.donneesquebec.ca/recherche/dataset/covid-19-portrait-quotidien-du-statut-vaccinal-des-nouveaux-cas-et-des-nouvelles-hospitalisations>, le MSSS diffuse les nouveaux cas et les nouvelles hospitalisations par jour, selon le groupe d’âge et le statut vaccinal.
