World Health Organization Health in All Policies Toolkit v.1.0 (forthcoming)
Fig. 1 The HiAP Toolbox

A. Information and research	B. Facilitating intersectoral collaboration	C. Framing and Politics	D. Governance and capacities
A.1 Scan of health situation (*level, distribution and causes*) **A.2 Review national plans** (*health, co-benefit and equity lenses*). **A.3 Knowledge gaps and research agenda** (*'what, why and how much'*) **A.4 National population health report** (*audience, frequency, institutionalization and format*)	**B.1 Scan of intersectoral action** (*Learning and establishing contact*) **B.2 National consensus building** (*problem, priorities, agenda*) **B.3 Policy champions** (*identification, roles and support needs*	**C.1 Scan of mega-trends** (*context, opportunities and threats*) **C.2 Windows of opportunity** (*identify, monitor, trigger and grab*) **C.3 Talking about HiAP** (*values, benefits, and language*);	**D.1 Vision and leadership** (*create, facilitate and support*) **D.2 Organizing the work** (*work streams and strategic activities*); **D.3 HiAP Core Team** (*authority, competence and capacity*);

Fig. 2 Mapping of the HiAP Toolbox against the HiAP Framework for Country Action

HiAP Framework - enabling conditions for successful practice	Individual HiAP tools*			
Establish the need and priorities for HiAP	A.1 Scan of health situation, A.4 National Population Reports	A.2 Review national plans	B.1 Scan of intersectoral action	C.1 Scan of mega-trends
Identify supportive structures and processes	B.1 Scan of intersectoral action	D.1 Vision and leadership	D.3 HiAP core team	
Frame planned actions	A.3 Knowledge gaps and research agenda	B.2 National consensus building	C.2 Windows of opportunity	D.2 Organizing the work
Facilitate assessment and engagement	A.3 Knowledge gaps and research agenda	B.1 Scan of intersectoral action	C.3 Talking about HiAP	D.3 HiAP core team
Build capacity	B.3 Policy champions	C.3 Talking about HiAP	D.3 HiAP core team	
Ensure monitoring, evaluation and reporting	A.3 Knowledge gaps and research agenda	D.2 Organizing the work		A.4 National Population Reports

*Some tools are important to support multiple actions in the HiAP Framework, and therefore may appear more than once in this figure. For ease of understanding, only the key HiAP tools for *'HiAP initiation'* are mapped across the HiAP Framework. It is recognized that other tools may also be relevant at different points in time and in different contexts to support HiAP implementation and so the table should be interpreted with care.
