

“HEALTH IN ALL POLICIES” STRATEGY IN BURUNDI

Acting together for the health of all !

QUEBEC, October 2019
By Dr MISAGO Léonidas
Ministry of Health BURUNDI

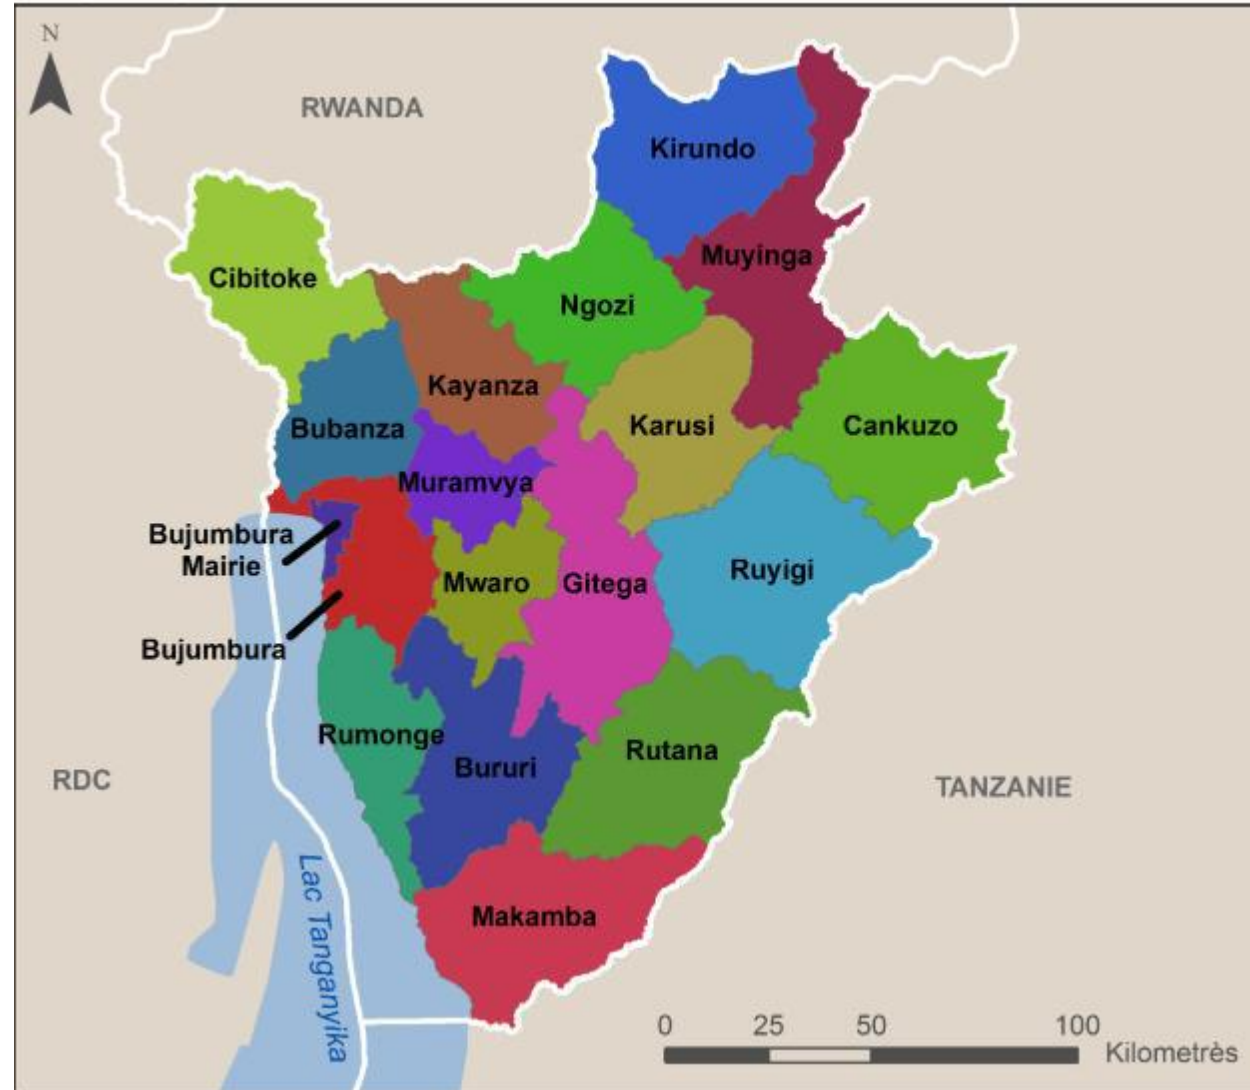

PRESENTATION PLAN

1. PRESENTATION OF THE COUNTRY
2. CONTEXT AND JUSTIFICATION
3. ACHIEVEMENTS
4. OBJECTIVES OF THE STRATEGY
5. IMPLEMENTATION
6. PERSPECTIVES
7. CONCLUSION

1. PRESENTATION OF THE COUNTRY

- Burundi is a country between East Africa and Central Africa
- It shares a border to the north with Rwanda, to the South and the East with Tanzania and in the West with the Democratic Republic of Congo (DRC)
- It's area is 27,834 km²
- The population is estimated at 11 495 438 inhabitants in 2017
- Developing country

BURUNDI

1. CONTEXT AND JUSTIFICATION IN BURUNDI

International context

In line with the Burundi Subscriptions to International Declarations and Acts:

- Alma-Ata Declaration on Primary Health Care
- May 2014 World Health Assembly Resolution on Health in All Policies
- Sustainable Development Goals (SDGs)
- Statement of ASTANA 2018

The occasion to develop an unique *expertise* in the AFRO area

1. CONTEXT and JUSTIFICATION in BURUNDI

National context

In phase with:

- **National Development Plan**

advocates the improvement of the legal framework for the health of the population and the implementation of health interventions

- **National Plan for Sanitary Development 2019-2023**

- General Objective 3: "Strengthen intersectoral collaboration for better health"

2. Achievements

An elaboration process participative and multisectorial

April 2018 : Establishment of the technical committee

June - November 2018 :

Document review

Table of indicators related to the determinants of health

Multi-sector workshops and working group meetings e

Steering Committee Meetings

November 2018-February 2019 : Drafting the strategy

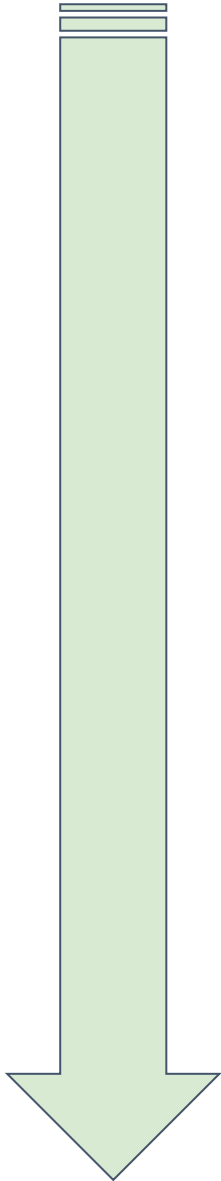

Mai 2019 :

Validation workshop in Gitega

Integration session of the recommendations of the workshop

July 2019 : Presentation of the strategy to the CPSD and start of implementation

September 2019 : Conférence Nationale de santé

The approach

Participative

Inclusive

Scientific and
innovative

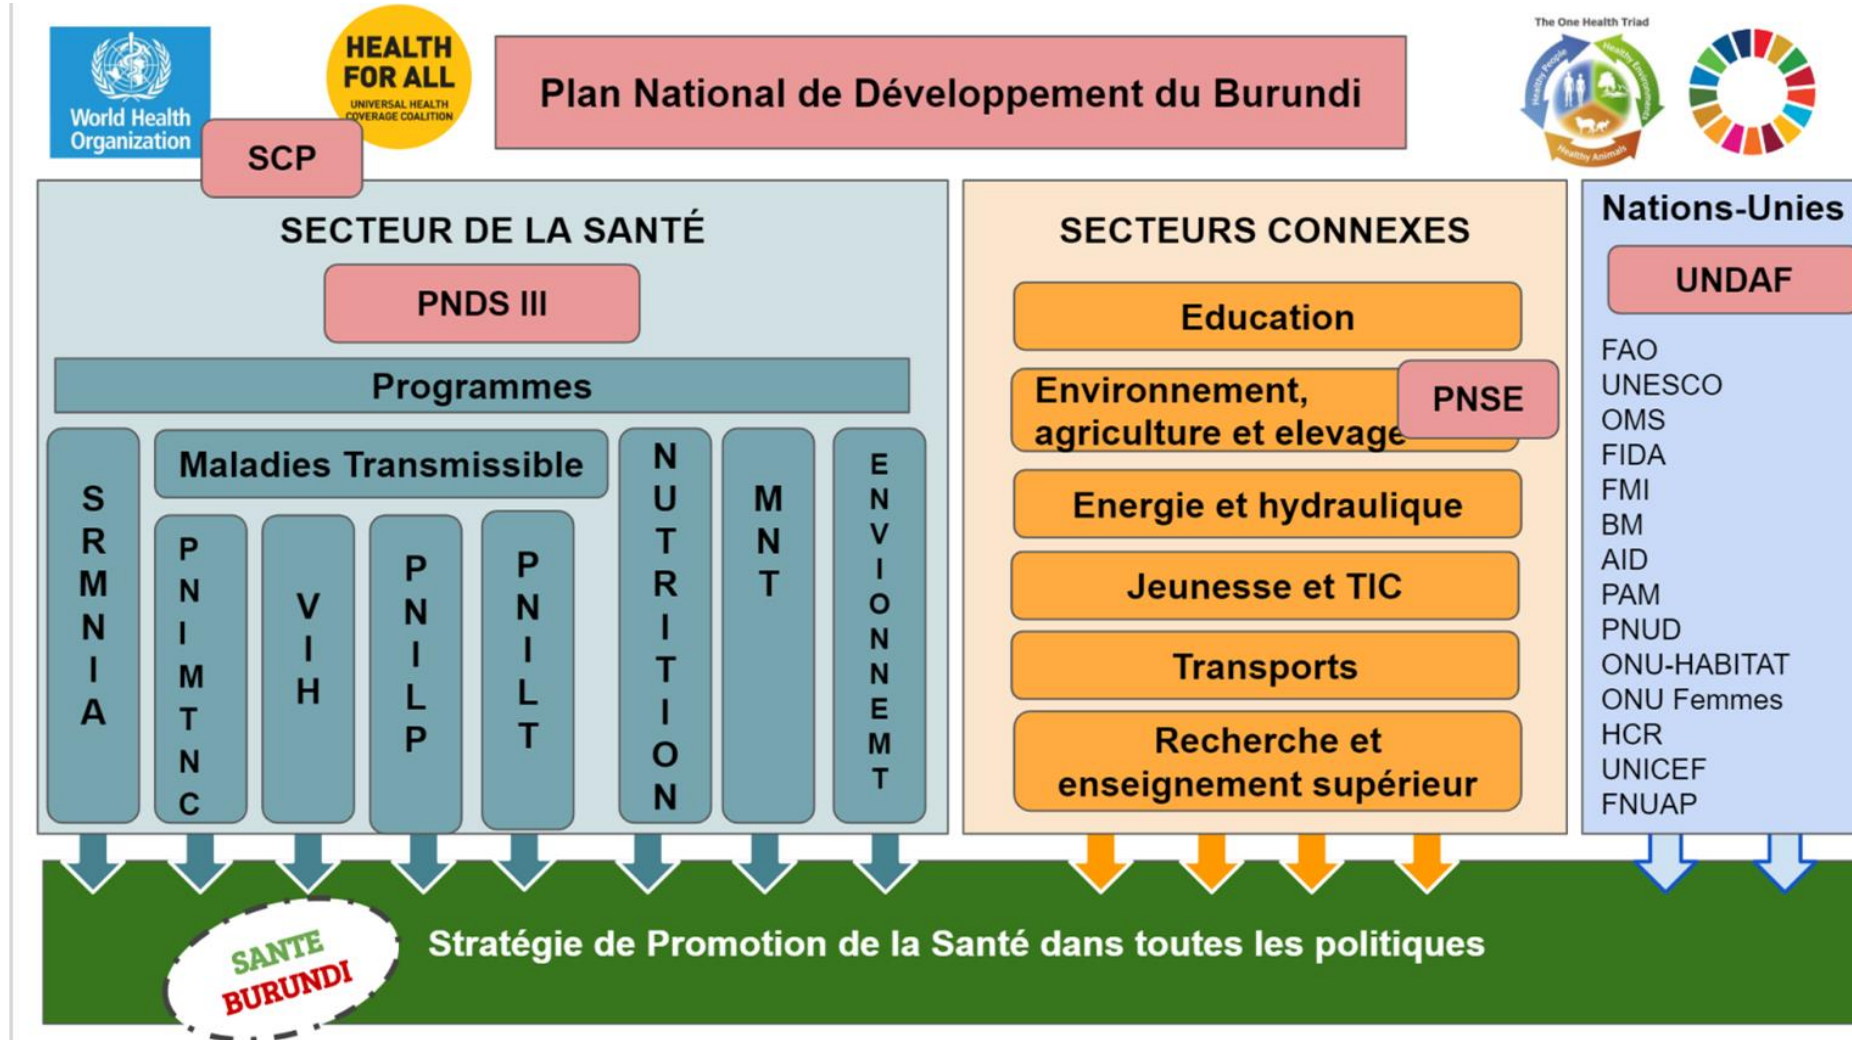

The documentary review: intersectoral bodies exist....

- National platform for the fight against emergencies and disasters
- Policy, strategy and structure of care for victims of gender-based violence
- National Council of Social Protection under the leadership of the President of the Republic
- Social Protection Support Fund
- National AIDS Council
- Framework for Consultation of Partners for Health and Development (CPSD)

but not yet a global vision

Framework of Burundi Strategy

Simplified framework for Health in all Policies in Burundi

3. Objectives of the Strategy:

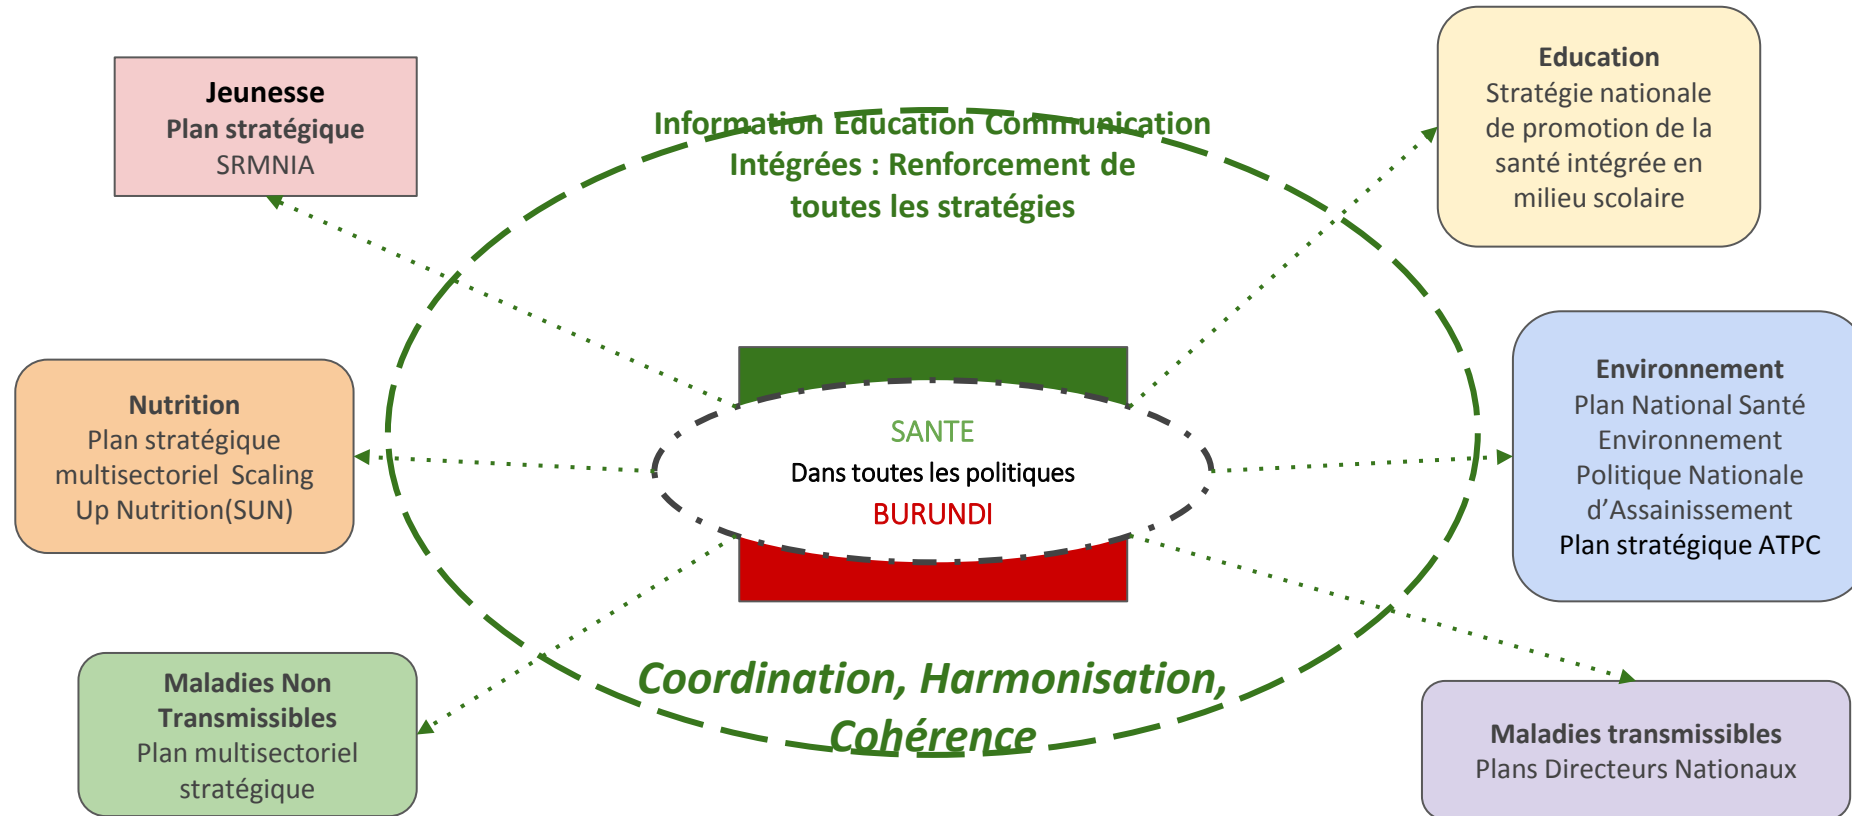

***Coordinate Information, Education and Communication** in an integrated and coherent way to promote the approach of Health Promotion in all policies and its advocacy, from the highest level to the community level, to all cast*

- ⇒ **Policymakers** are well informed about the health, equity and long-term consequences of different policy options
- ⇒ **The population** is informed and adopts a healthy behavior

Strategic axes selected

It's about strengthening the existing

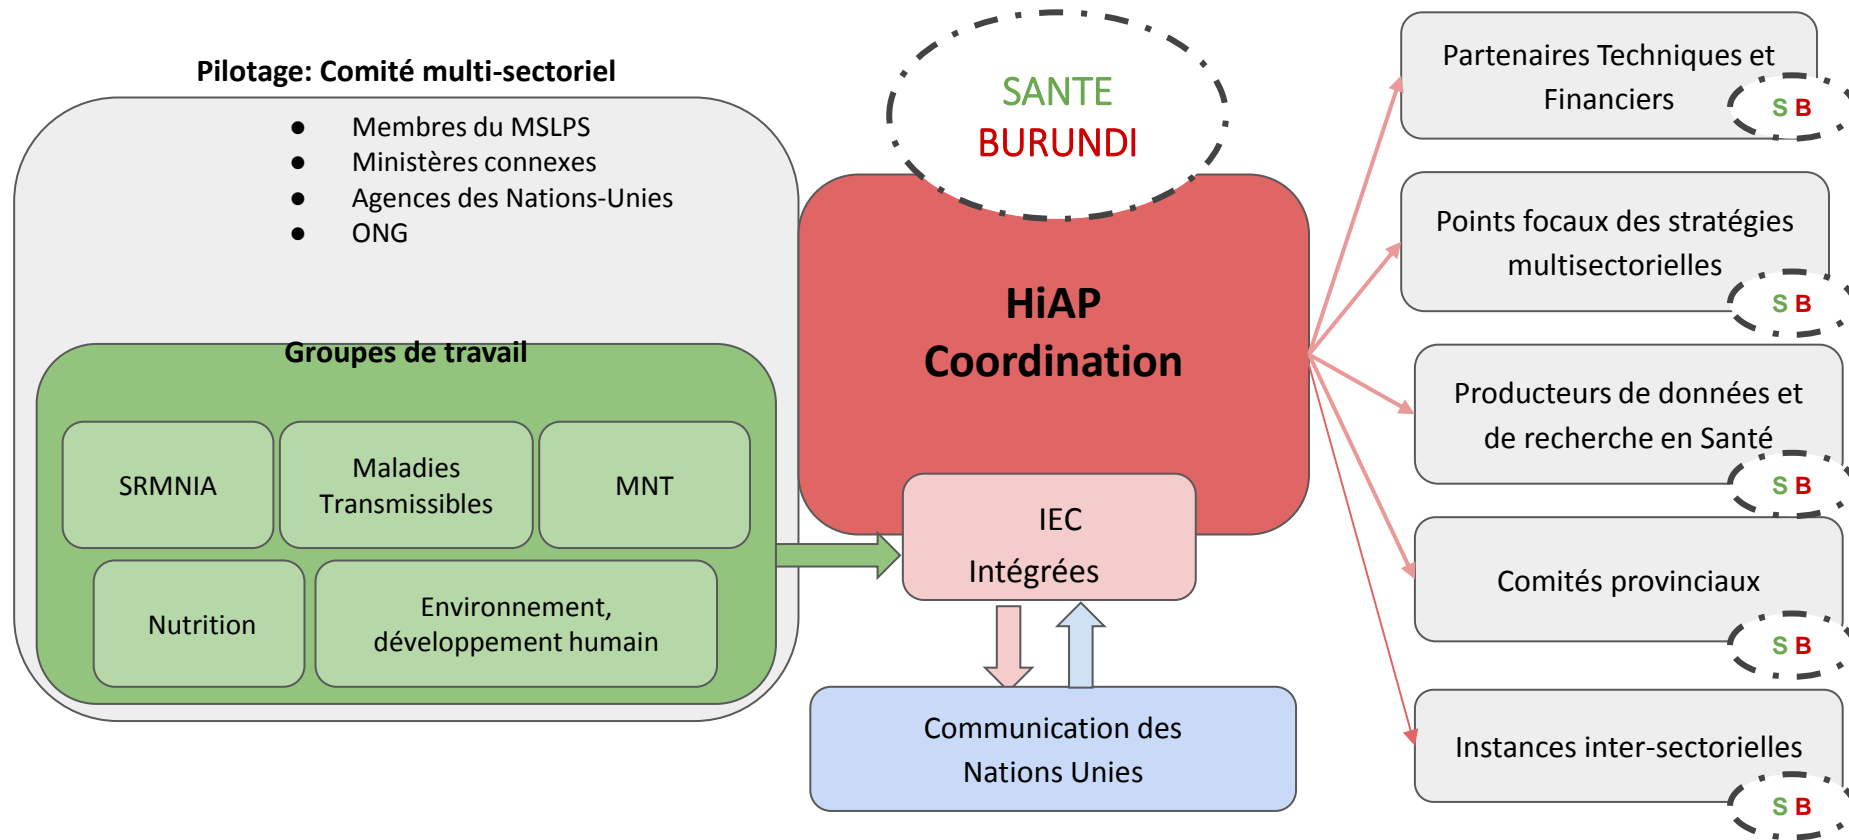

Acting together for the health of all !

Key elements

- Promote a multi-sectoral approach of the entire Government and all Burundian society;
- Promote health, equity and sustainability so that health policy in all policies is routinely integrated into related sectors;
- Coordinate and support intersectoral collaboration;
- Focus on multi-sectoral commitments and win-win partnerships;

4. IMPLEMENTATION

Governance

Action 1 : Creation et integration of the label “Santé Burundi”

Acting together for the health of all !

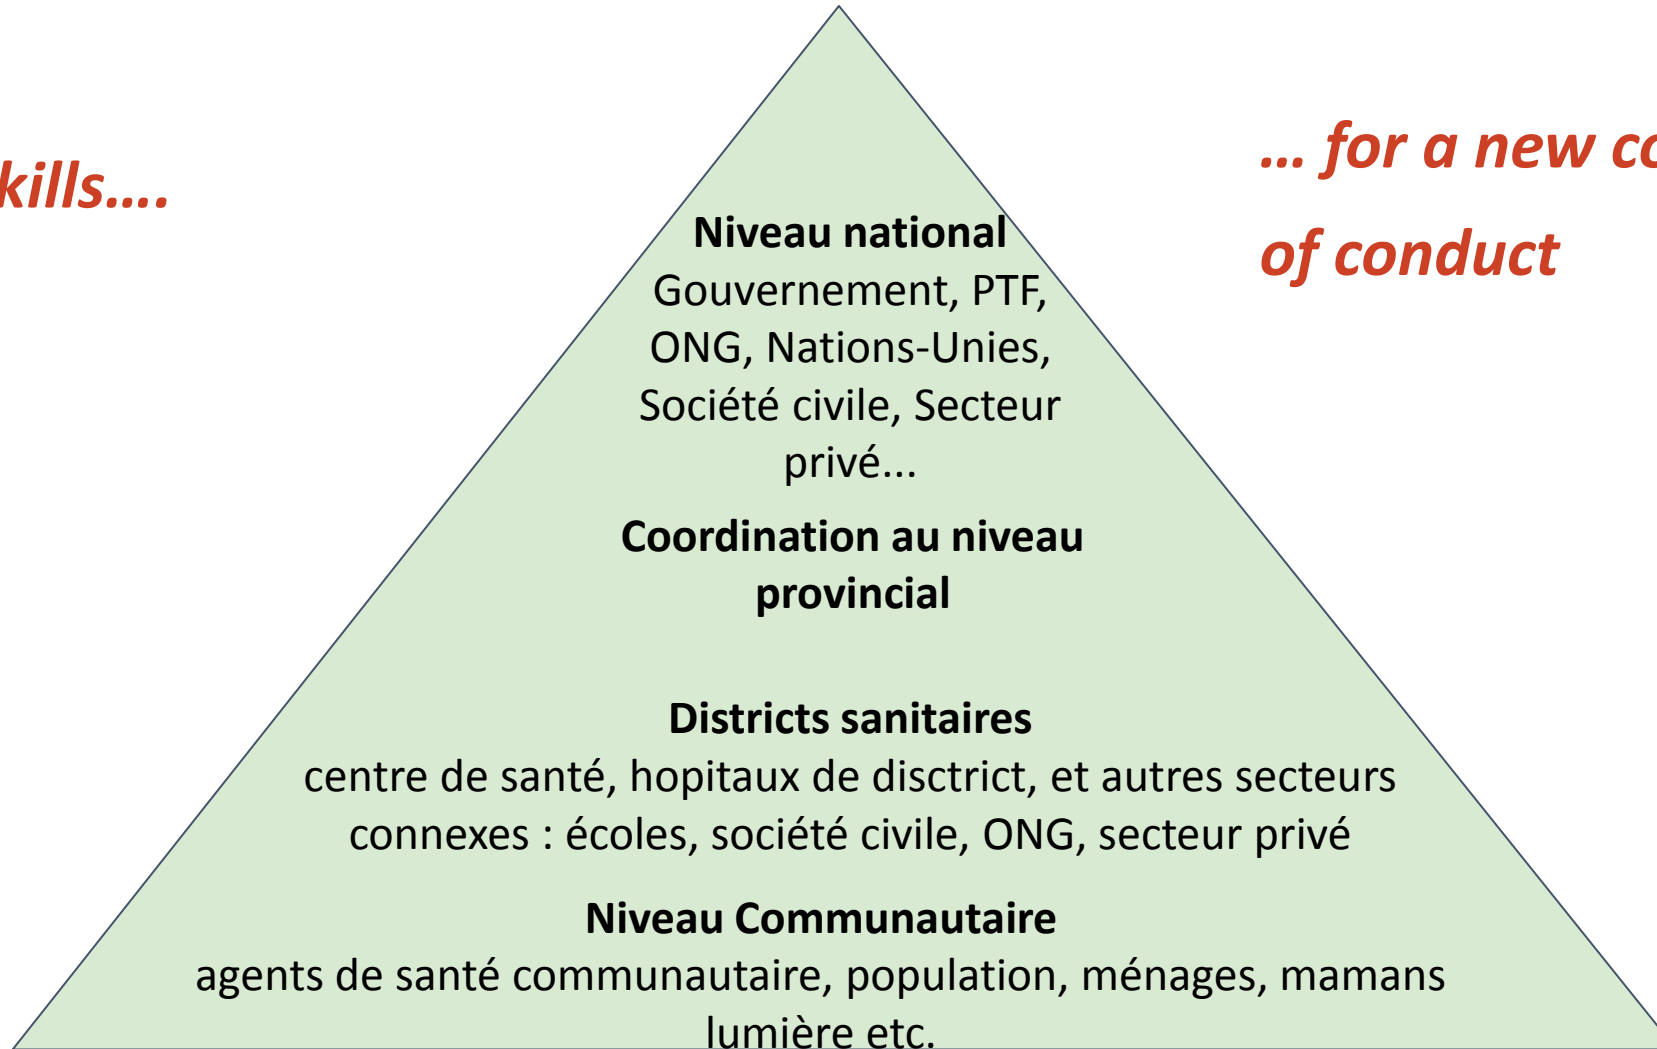

A repeated message and a quality label for Burundians

Action 2 : Capacity building

Skills....

*... for a new code
of conduct*

**=> All decisions take into account improving the health of
Burundians!**

Example of possible implementation : School

Health information shared
by all actors

Training adapted to each
age

Health training every
year for all school
children

SANTE
BURUNDI

Mom, put
the mosquito
net for the
baby!!

A generation with health
skills

Ambassadors in the
community

5. PERSPECTIVES

- ❑ Establishment of multisectoral steering committees for the strategy at all levels (National, Provincial and Communa);
- ❑ Establishment of multisectoral technical committees for the implementation of the strategy at all levels (National, Provincial and Communal);
- ❑ Burundi's participation in the International Health Network in all policies
- ❑ Organization of a national strategy launch conference coupled with a Resource Mobilization Round Table for the implementation of the strategy.

6. CONCLUSION

- To improve the health of the people of Burundi, the entire Government and its Development Partners are called to engage in an innovative strategy based on the social determinants of health to ensure access to health services in Burundi. population and the reduction of inequalities because health is everyone's business;
- The entire Burundian population in general and all the leaders of the different sectors of the national life in particular are called to appropriate this strategy which gives them the means to assure a greater control on their own health, and to improve them because health is a resource of everyday life, and to work in synergy to achieve better health and economic and social well-being.

Thank you for your attention
